

2/10/2025

Greetings,

My father-in-law, Dale McCarty (Korean War Vet and former pilot), just recently passed away.

He had to move out here to VA with me for his health.

He said he used to fly remotes with the club out in Boerne and he wanted me to see if there was anyone out there who would like to purchase his planes and equipment.

He mentioned two members specifically that used to help him out.

Do you have a site to post for sale items? Or any other advice?

He had lots of stories about his time flying with the people around Boerne.

If anyone would like his planes and equipment, just offer a fair price for his widow and we'll ship it out to you guys!

He worked on his planes up until he went into the hospital. It was his last hobby and joy in life.

Here are some pictures:

Thanks,

Sam
